Kewaunee Harbor, WI - Kewaunee Harbor Confined Disposal Facility (Kewaunee Harbor CDF)

Project Description

- Navigation Project Served: Kewaunee Harbor, Wisconsin
- The facility is owned by the City of Kewaunee
- The facility is operated and maintained by the Chicago District, U.S. Army Corps of Engineers
- Kewaunee Harbor CDF is an in-lake facility attached to land in Kewaunee, WI. The CDF is located north of the Kewaunee River on Lake Michigan adjacent to the shore and breakwater.
- The Kewaunee Harbor CDF has an area of 28 acres, has a total constructed capacity of 500,000 cubic yards, and receives about 30,000 cubic yards every three to five years. The CDF is currently at capacity (less than three years of capacity remaining, as of July 2021).
- Planning work on a Dredged Material Management Plan (DMMP) is being initiated as funding becomes available.
- Non-Federal interests may use this disposal facility if it is determined that the capacity to be used by the non-Federal interest will not reduce the availability of the disposal facility for Federal navigation project purposes, that the material is environmentally acceptable, and after payment of a tipping fee.

Project Authority

- The facility was constructed in 1982 under the authority of Section 123 of the River and Harbor Act of 1970, Public Law 91-611, as amended.

Beneficial Use Information

- Direct transportation access to the CDF is available via road and water.
- For more information about beneficial use opportunities, please contact the Corps of Engineers using the contact information at the bottom of this fact sheet.

Congressional Interest

- Representative Mike Gallagher R-WI-8
- Senator Ron Johnson R-WI
- Senator Tammy Baldwin D-WI
